

## Web and Database Programming

### Project

#### Finance & Budget Tracking App

##### Purpose

Helps track all expenses and see how much the user is spending and what they are spending it on. As well, a budget planner is included within it to keep the user on track with their expenses.

##### Problem it solves

Helps people control their expenses and limit spending to invest more of their money and spend less on things that aren't necessities.

##### Intended Users

- College Students
- Recent College Grads
- Working Professionals
- Anyone looking to keep track of their finances

##### Key Features

- Register and Login
- Add Salary to set max spend per month
- Add Expenses
- View Expenses
- Budget Planner
- Update/Delete Entries
